

CZECH NATIONAL TEAM GOALKEEPER HAS SIGNED FOR LUND

Lenka Remešová | Photo: Björn Alexanderson

Today we are happy to present the season's fifth new acquisition for our women's team in the Swedish Superliga, also a Czech national team goalkeeper. We can announce that the club has signed Lenka Remešová, who most recently comes from two seasons with Täby in SSL. Remešová, has previously represented several Czech clubs, where before moving to Sweden, she had a strong season in Florbal Židenice. In addition to this, the 26-year-old has merits from both the WC 2021 and EFT 2022 (Euro Floorball Tour) with the Czech national team, where it was fourth place in the WC and a bronze in the EFT.

With a national team goalkeeper in, the goalkeeping side looks really strong, something that the management staff sees as a great strength and security for the team.

- This signing really sharpens the competition on the goalkeeper side and now we have three good goalkeepers and a future name in our junior team. Lenka is a serious floorball goalkeeper who is willing to train and constantly wants to get better. She is a fast goalkeeper who is good at challenging the shooter. In addition, she has quick reflexes and is not afraid to start the game quickly, says head coach Pontus Kozan describing the team's latest acquisition.

- Lenka has already been here and made a couple of sessions with the team and has already been liked in the group. I think this signing shows that we really have something good going on, he continues.

After two seasons in league rival Täby, a new challenge awaits in Lund. A decision that built a better competitive situation for her as a goalkeeper.

- I really liked playing for Täby and I appreciate the opportunity to have gotten to know SSL there. With a Swedish national team goalkeeper in the team, I felt that it would not be the best place for me to develop, because to develop myself I need to play matches, says Lenka Remešová about her choice to come to Lund.

After her two years in Sweden, she sees some pretty clear differences between SSL and the Czech equivalent, Extraliga.

- I think the quality of the game with the ball and the speed is higher in SSL compared to Extraliga. Not only the matches but also the training sessions are at a faster pace, says Remešová.

- There is definitely more traveling for matches here in Sweden, she says in conclusion.

Remešová describes herself as a quick and mobile goalkeeper who likes one-on-one situations, while finding a mental calm.

- I would describe myself as a fast, energetic goalkeeper with good movement. Lately I've found that I really enjoy playing one-on-one and I love practicing to get better. I like to win, so I give 110% to every game. Although I am energetic in movement and in the game, I would say that I am quite calm mentally and keep my cool in stressful situations.

It is with great confidence that the 26-year-old looks forward to the coming season, where a place in the playoffs is the goal.

- I think we will have a good season. With a great team spirit and coaching, we will reach the playoffs next season. I am very much looking forward to playing for Lund.
